Summary:

What if there was no upside down, no demogorgon.

Repost from Wattpad, very old from Early 2020

No Upside-Down

Author's Note:

Suddenly I post on AO3 again!!!!!!!

November 6th 1983

The party just got finished with their 10 hour long campaign and decided to go home. Everyone was packing up and Lucas and Will were mid up the stairs until Dustin asked if they wanted the pizza they had, Both boys said No sink running up the stairs.

Dustin runs up to Mike's sister Nancy's room asking if she wants the pizza with the response of a door slam. He walks downstairs throwing the pizza in the trash before walking to his bestfriend's garage where he put his bike.

Everyone was getting set up on there bike before Dustin blurted out how uncool Nancy was. Mike explained how she was always uncool, but Dustin refused to believe it. Lucas and Dustin road out the huge garage together.

"It was a 7."

"Huh?"

"The roll. It was a 7... The Demogorgon.. It got me."

"Well, See you tomorrow."

Will said while beginning to start pedalling on his bike.

(Ok, I promise you this isnt a season 1 recap :))

Mike turned around and walked to the garage controls and closed the garage.

Will was riding down the street 'Maple Street' before hearing the honk of a car right behind him, terrified, Will swerves in the ditch. He hears the car door open and close so he got up and booked it into

the forest. Will crashes into the ground busting his lip open and hurting his ankle, not being able to get up and run anymore. The huge figure walked closer and closer toward him, trying to protect himself. Will put his hands up in a 'X' formation but that didn't help much when he felt muscular hands grip onto his wrists and dragged to the trunk of the car. Still not able to identify who this person is, he tried resisting only to get a knee to the stomach which made him helpless.

When Will was forced into the trunk, he got his wrists and ankles tied up, which made it very painful due to him hurting his ankle earlier, but when the man tied a bandana around his mouth, he finally identified who it was. Lonnie Byers.

The trunk closed, leaving only Will, some car wheels, a bat, and some other useless things in the back. The darkness made him sleepy, so Will fell asleep, only to be woken up to his father the next morning. He didn't know what time it was, but he knew it was between 10 am to 1 pm. "Listen here f*g. IF you make any noise back here, just remember I have a belt with your name on it in my room. Your mother doesn't parent you correctly, I'm just testing her knowledge on how well she parents you. SO you better stay fucking quiet back here. Do I make myself clear?" Lonnie tells Will. Will nods at Lonnie, terrified on what will happen next, but only to get the trunk to be closed again.

(This is after Joyce reported a police report)

Jonathan and Joyce sat on the couch looking at pictures of Will. "Hopper said that 99 out of 100 a child is with a parent or guardian. I asked him about the other time, but he didn't get me," Joyce said. "What if he's with Lonnie?" Jonathan said, snapping while getting up and putting on his jacket. "Jonathan, no. It's not safe! I can't lose you too," Joyce yelled, getting up. "It's ok mom, I promise you, nothing will happen to me, and I promise you if I can, I will get Will." Jonathan said, looking at his mother with a serious look.

Jonathan got into his car and drove off to his father's house in Indianapolis. the car drive was only about a 45 minute drive from Hawkins to his fathers house so he put on some music.

Jonathan finally got to his fathers house. He got out of his car, walked up to the door and slammed on it so someone will answer it. A young woman opened up and Jonathan pushed past her and knocked on the doors in the house until he was pushed back by his father. "Get off me" Jonathan said while pushing Lonnie off him. "Can someone please tell me whats going on?!" The woman yelled, "Cynthia, Jonathan, Jonathan, Cynthia. My oldest son" Lonnie said pointing at Jonathan.

"Let's go outside." Jonathan said.

--

Will laid down on the trunk carpeting bored out of his mind, I mean what is he suppose to do?? His whole way of moving is tied up. He heard talking in talking coming outside from the car so he stayed quiet not wanting to get beat by his father.

Jonathan and Lonnie walked in the back where Jonathan sees the car Lonnie has. "Like it, still fixing it but when its all finished it will be the best car in town." Lonnie said while smirking. Jonathan was suspicious why the car was moving all of a sudden, "Why is the car shaking?" Jonathan said. 'What if its will trying to look for help.' but thats when he hear a whimper coming from the trunk of the car.

Jonathan ran to the back of the car and opened the trunk to his baby brother in terrified. "I told him to be quiet." Lonnie mumble. Jonathan walks up to Lonnie and punches him. "Why is Will in the back of your fucking car?!" Jonathan screamed looking down at Lonnie that just fell onto the ground. Lonnie was silent while he sees his son walk back and untie his youngest son from the ties he set up for Will.

Finally Jonathan unties the bandana from Wills mouth and picks him up out of the car. He walks up to Lonnie with Will in his arms, "Don't

you EVER come near Will or our family again." He shouts kicking Lonnie's side.

Jonathan walks into Lonnie's house just to walk out of the front door, "Now who the fuck is that??" Cynthia yells while Jonathan puts Will in the backseat of his car. Jonathan soon gets into the front seat and drives off.

"Thank you, Jonathan..." Will speaks up from the backseat of Jonathan's car. Jonathan is stunned from how terrified Will's voice is to the point where he pulled over to the side of the road and got out. He motioned Will to come out which he did and both of them just hugged. After this moment, Jonathan swore that he will never let Will be in pain ever again
